

NEWSLETTER

HIGHLIGHT

ILEDA project aims to help online/blended learning in enhancing education quality, solve problems with students retention and provide support to learning environments that are in use in different educational institutions.

The emphasis is put on responsible and effective adoption of new teaching methodologies, while keeping students engaged and motivated.

PARTNERSHIP

4 partners join their efforts and work together to achieve project goals:

- Sofia University, BULGARIA
- Belgrade Metropolitan University, SERBIA
- Universidad de León, SPAIN
- University of Eastern Finland, FINLAND

IMPROVING ONLINE AND BLENDED LEARNING WITH EDUCATIONAL DATA ANALYTICS

PROJECT RESULTS

- Framework for integrating learning analytics with developed innovative instructional teaching models
- Designed teaching and learning materials for blended and online courses based on the developed framework
- Developed 1 software learning analytics tool that can be used by all participants and will be shared as an open source code for the wider audience
- Guideline and recommendations for the framework application indifferent educational contexts

FIRST ILEDA TRAINING (LTT) IN SPAIN

Our 1st ILEDA training took place from 27 June to 1 July 2022 in Spain. The training was kindly organized and hosted by our partners from University of Leon (ULE)! 5 days of intensive training gathered together more than 18 participants from partner universities of Bulgaria, Serbia, Spain and Finland.
